Continuation of Substance of Interview including description of the general nature of what was discussed: Discussed with the Attorney that the recitation "including lens having a non-uniform thickness" in claim 1 as amended on 26 April 2007 could raise a rejection to the scope of the claim under 35 USC 112. The Attorney agrees to delete the recitation and added a limitation --wherein said non-reflective portion includes a thinner portion closer to the reflective portion and a thicker portion at a central point of the non-reflective portion-- by an examiner's amendment. The Attorney also agrees to include the cancellation of claim 31 since the claim does not include the limitation to distingush from the prior art of record.
